

# WingBoost<sup>2</sup>

## Logistic Data:

description  
Alpenföhn WingBoost2

part number  
84000000098

EAN-number  
4250280396515

recommended retail price:  
14,90€

## Scope of delivery:

- 1x 7VDC Adapter
- 4x rubber buckle
- 4x screws
- 4x mounting parts to install the fan @120/140mm mounting holes

## Specifications

Dimension:	140x140x025mm
Rated Voltage:	12VDC
Starting Voltage:	5 VDC
Noise:	19,6 dB(A)
Speed(12VDC):	1100 rpm
Range:	400 - 1100 rpm
Airflow:	109 m <sup>3</sup> /h
Y-Plus Funktion:	Ja

## S-Shape geometry

With the improved S-Shape geometry we could reach a higher static pressure compared to conventional designs.

## WB2 Technology

Many users ask themselves...what are WingBoost's? WingBoost's are ridges on the impeller that guide the air on the air-inlet side of the impeller. Using the WingBoost 2 technology air turbulences are reduced wich leads to a lower noise level at full speed.
